Modify Hanford Federal F	acility Agreemen	t and Consent Order	(Tri-Party Ag	reement) Appendix	C Movi	ing the 216-N-8 W	Vaste
Site from the 200-CW-1 O		0					
Description/Justification							
Appendix C of the Tri-Party Agreement lists Hanford waste sites that potentially require remediation. When the U.S. Department of Energy, Richland Operations Office, the U.S. Environmental Protection Agency and the State of Washington Department of Ecology, hereinafter referred to as the Parties, first negotiated the Hanford Site cleanup program, the waste sites were divided into OU's. OU groupings were based on the likely response scenarios including both sampling and analysis and remedial action. OU groupings were revised as the likely response scenarios changed. Each OU (and the waste sites contained therein) was defined as either a Resource Conservation and Recovery Act (RCRA) Past Practice Site or a Comprehensive Environmental Response, Compensation, and Liability Act Past Practice Site based primarily on the presence or absence of RCRA treatment, storage, or disposal facilities within the OU.  Operational records indicated that the West Lake site (216-N-8) did not receive cooling water discharge and is not appropriate for the 200-CW-1 OU. Based on the intermittent nature of the waste site, the West Lake site is more appropriate in the 200-UR-1 OU and not the 200-CW-1 OU.  Modifications/deletions to Appendix C are included as pages 2 and 3 of this Tri-Party Agreement change package and are denoted using redline/strikeout; additions are denoted with shading.							
Impact of Change:				1.1			
Changes to Appendix C; no	o impact to Tri-Pa	irty Agreement mile	stones or sche	dule.			
Affected Documents:  The Hanford Federal Facility Agreement and Consent Order, as amended, and Hanford Site internal planning management, and budget documents (e.g., USDOE and USDOE contractor Baseline Change Control documents; Multi-Year Work Plan; Sitewide Systems Engineering Control Documents; Project Management Plans, and, if appropriate, LDR Report requirements).
